## 2003 trek & climb with us

#### EVEREST BASE CAMP TREK WITH OPTIONAL ASCENT OF LOBUCHE PEAK EAST 6119m

A unique opportunity for you to take part in a trek to Everest Base Camp visiting the famous viewpoint of Kala Pattar. The views from Kala Pattar are amongst the finest in the world, spectacular, rugged and unforgettable. We travel as a self contained group in order to minimise our impact on the local environment. Our cooks use only kerosene for cooking and all rubbish is disposed on the waste disposal sites set up by the local government.

We additionally offer the optional guided ascent of 6119 metre Lobuche Peak. Set in the spectacular Khumbu region, Lobuche Peak is one of the most accessible 6000 metre peaks

currently available to groups such as ours. Lobuche is only some 6 km from Mount Everest and the view from its summit has to be seen to be believed. The mountain is graded as moderate to climb i.e. requires the use of ropes, crampons and ice axe, but is within the capabilities of most fit people. The group will be accompanied by experienced British mountaineers and a guide of the Nepalese Mountaineering Association.

This expedition takes participants through one of the most continuously interesting areas of the Himalaya. It is an ideal trip for a first taste of Himalayan Trekking and Climbing. It is also a good choice for people on a tight schedule as the duration is 21 days with approximately 17 days trekking and/or climbing.

The trip is suitable for paraglider pilots wishing to experience the thrill of Himalayan flying. The approach to the mountain allows for a good amount of flying from the ridges and passes and the flying is excellent at both Thyangboche and Periche where we will be spending time acclimatising to the altitude.

Adventure Extreme has a great deal of experience in catering for the ambition of mountaineers, paragliders and extreme skiers. Feel free to call us to discuss your special needs on this adventure.

I RIP OVERVIEW			
Dates	12 – 29 November 2003		
Cost	£1320.00 (Land price only)		
Flight to Lukla	We save many days of walking by flying to Lukla at 3000 meters. Lukla is a small STOL (Short Take C & Landing) airfield close to our mountain. The flight in and out of Lukla is "interesting" to say the leas and probably one of the most spectacular flights in the world.		
Walk In	They say that in Nepal, whichever way you walk is up! I can promise that after a few days you will believe that saying wholeheartedly. We cut across the grain of the country; each ridge higher than the previous one usually with an ever opening panorama. Seldom is the daily walk more than 8 or 9 miles, utilising traditional stopping points.		
	On our 2nd day of walking we should arrive at the Sherpa market town of Namche Bazaar altitude approx 3500 metres, where we can enjoy a rest and explore this beautiful area. A further day takes us to Thyangboche which is set amongst the highest mountains in the world with fantastic views of Mount Everest, Lhotse, Nuptse and Ama Dablam. From this point we ascend slowly spending several days on necessary acclimatisation to the altitude. Acclimatisation days will be spent at Namche Bazaar, Thyangboche, and Periche.		
	The trekking group will continue up to Lobuche Lodge at 4900 metres before visiting Kala Pattar and Everest Base Camp. Simultaneously the people wishing to make the ascent of Lobuche Peak will move to Base Camp.		
Base Camp	Our base camp will be situated in a small side valley beneath Lobuche Peak at an altitude of about 4900m. We will establish our high camp from here whilst acclimatising.

Accommodation	Any additional hotel accommodation over the four nights covered whilst with Adventure Extreme.		
Personal Equipment	(See notes).		
Canopy	For flying members of the expedition; you must provide your canopy. (However, we can arrange t rent you one for the trip if required).		
Visa	British Passport holders can obtain a visa on arrival at Tribhuvan Airport (\$30 for 30 days), otherwis they can be obtained through the Nepalese Embassy in London or in country of residence.		
GENERAL			
Transfers	Tribhuvan Airport is some distance from your hotel in the Thamel area of Kathmandu. The hotel minibus will be at the airport to meet you, if required.		
Your Hotel	Thamel is where it all happens in Kathmandu, and we stay right in the heart of Thamel at the Til Guest House Hotel. The hotel has twin-bedded rooms with en suite facilities. Restaurant, Roof T Garden, Satellite TV, Laundry Service and IDD service. This is a very friendly family run business a we have used the hotel for many years and we are sure you too will certainly feel at home here.		
Meals	We do not provide meals in Kathmandu as there are hundreds of cheap restaurants providing excellent and varied food. Particularly recommended are KC's, Rum Doodle's, Narayans, Utse's Tibetan Restaurant and the Yak & Yeti. Also the Casinos which some large hotels run provide good food; cheap. Food for the trek and climb is provided and is excellent - vegetarians well catered for!		
Kathmandu	Kathmandu is the chocolate cake capital of the universe, so putting on weight after your trek is usually no problem. Most people find Kathmandu to be one of the most interesting and varied places in the world. The normal means of transportation is to rent a bicycle for the day at a cost of about 40 pence. You will find that the bicycle rickshaw is cheap too. (Haggle before agreeing a price!).		
	Gifts and trinkets abound - you will have no difficulty finding unusual presents for family and friends back home. Of particular interest are Tibetan Rugs and precious and semiprecious stones sold loose in many of the jewellery shops. Traditional silver jewellery is to be found everywhere and is not expensive, so be prepared to be tempted.		
Porters	It is important that each person travels as lightly as possible, but we will provide porters to carry additional baggage. (People should restrict their equipment weight to what they walk in, plus 15 KGs MAXIMUM canopy extra). We ensure that our porters are suitably clothed for working on this trip and that they have adequate footwear. You may find your porter to be particularly helpful during the trek, often acting as guide to local points of interest, should this be the case a monetary tip at the end of the trek will be welcome. About £20 is fair, but strictly optional.		
Fitness	Although it is not necessary to be an athlete to take part in our trips, a good general degree of fitness is desirable. Some of our climbing expeditions are fairly strenuous, other treks much less so. If you have doubts about suitability of any of our trips for you, please feel free to contact us for individual advice.		
Mountaineering Options	Some of our trips have a mountaineering peak included as an objective. This is not obligatory and you may wish to take part in the trek, without the climbing element. If you wish to climb you should have basic mountaineering experience, again, we are able to offer specific advice as required.		
Weather	We have chosen this time of year because conditions can usually be relied upon to be cold, clear a stable. However, we all know that the weather can sometimes be unpredictable. Generally, we expect to wear light clothing for much of the walk-in. Above 4000 metres, and even lower at night gets very cold indeed, so warm clothes are essential.

#### Money

You will find it easy to change Travellers Cheques in Kathmandu, and in villages where there are Banks. We would recommend American Express as there is an office in Kathmandu. Cash will be needed for gift purchases etc. US\$ and Pounds Sterling cash notes can usually be changed along the trail but not always. You'll need a little money if you want to buy beer at around £2.00 per bottle! Plus some extra for presents, emergencies and any other unforeseen problems. Credit Cards are NOT widely accepted outside Kathmandu.
